

Minutes of Meeting.

Meeting Objective: Exploring views and their types and hands on practice on their syntax and discussion -24,25 &38(self study).

Date: 20-05-2024.

Time: 11:30.am.

Location: JAIN (Deemed-to-be-university), Faculty of Engineering and Technology.

Attendees:

- 1.Mr. Akash, Futureense Technologies,
- 2.K shreeshanth.
- 3.Chethan Y.
- 4.Jeyapathy m.
- 5.Vishnu.
- 6.wajith ,fellow colleagues of batch 2024 ,jain university.

Meeting agenda:

1.To have a complete understanding on views and it's types in MySQL.

2.understand how to create and use views in MySQL queries through hands-on.

- A view is a virtual table in MySQL, which is derived from one or more tables. It allows users to encapsulate complex queries into a single table-like structure, simplifying data access and manipulation.
- Views are used to simplify complex queries, enhance security by restricting access to specific data, and provide a level of abstraction over the database schema.

Next Meeting:The next meeting will be scheduled for 21-05-2024 [11:30]. The agenda will focus views in the sql and Scenario-based Exercises and practice Exercise - Views - Types of Views in sql.
