Minutes of Meeting

Meeting Agenda: Installing and Exploring MySQL Workbench.

Date: 29-04-2024.

Time: 11:30.pm.

Location: JAIN (Deemed-to-be-university), Faculty of Engineering and Technology.

Attendees:

1.Mr. Akash, Futurense Technologies,

2.K shreeshanth.

3.Chethan Y.

4.Jeyapathy m.

5.Vishnu.

6.Nutan ,fellow colleagues of batch 2024 ,jain university.

Meeting Proceedings:

1.Installing and Exploring MySQL Workbench.

2.Uploading a Database into MySQL Workbench.

3.Practicing SQL Queries within MySQL Workbench.

4.Utilizing Provided Practice Materials for SQL.

Installing and Exploring MySQL Workbench:

- Visit the MySQL website and download the MySQL Community Server and MySQL Workbench.
- Follow the installation instructions for your operating system.
- Once installed, open MySQL Workbench.
- Familiarize yourself with the interface, including the Navigator, SQL Editor, and Object Browser.
- Explore the available features and settings to customize your experience.

Uploading a Database into MySQL Workbench:

- If you have a database file (usually with a .sql extension), you can import it into MySQL Workbench.
- In MySQL Workbench, go to the "Server" menu and choose "Data Import".
- Select "Import from Self-Contained File" and choose your database file.
- Follow the prompts to complete the import process.

The meeting was called to order at 11:30 by Mr.akash(Guide, futurense technologies) all attendees and thanked them for their valueable time .

Next Meeting:

The next meeting will be scheduled for tomorrow [11:30]. The agenda will focus on advanced SQL commands and query optimization techniques.
